FIRST FORMATION

What Went Well:

- Interaction during the Resume' Workshop
- Counterdrug presenting the drug trends in Arkansas
- Presenters loved the one on one with the Guardsmen

> What were the most beneficial areas of the Workshop and EXPO?

"10/10"

"Fantastic events! Great info everywhere! I feel prepared to transition to my unit, college, and filled with stronger purpose and straighter direction about my future career in both the workforce and army."

Room for Growth:

- More School and Employment Options
- More Snacks
- Communication to Soldiers still needs improvement

> What is one thing you would change about First Formation?

"Making more things optional depending on where people are or what they are going in life"

"More discussion about the units we go to, I don't know much about my Unit."

"The waiting time"

"Able to leave barracks. We should be able to leave the barracks and come back not just sit there all day as if we're still in training."

"Having the Drill Sergeants recognizable in campaign hats is very helpful for flow and structure."

TOGETHER

WE MAKE THE GREATEST IMPACT!
